

# Cuteserver

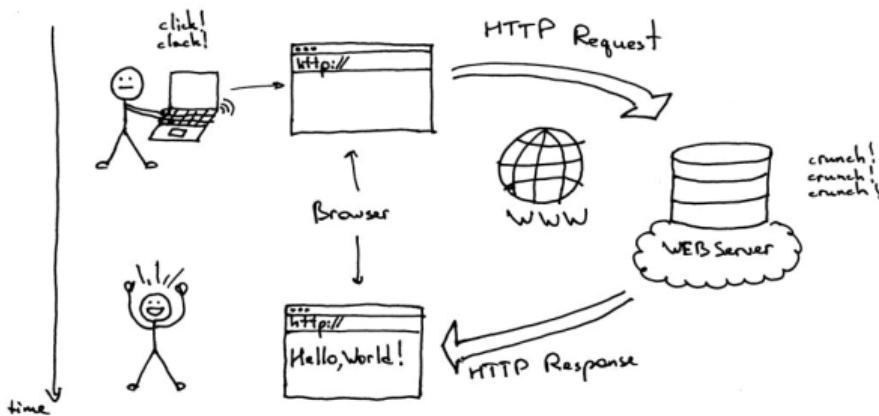

---

Rahel Kempf, Ephraim Siegfried

Operating Systems, University of Basel

14.06.2024

# Problem Statement

We visit web pages all the time and want to understand the underlying processes. Therefore we want to build our own web server.

# Implementation: Conceptual Overview

---

## Implementation (Code)

---

Proposed Solution: How did you solve the problem? Prioritize a conceptual explanation of implementation, configuration, and setup. (May use code snippets to explain concepts but not full code listings.)

# Progress Pictures
